COMMUNITY NOTICE

Kanehsatà:ke.ca : A new online hub for our community

October 9, 2026 - The Mohawk Council of Kanehsatà:ke is excited to introduce our new community website: a modern, easy-to-use online space designed to help community members find information, access services, stay connected and discover what is happening in Kanehsatà:ke.

Spotlight on Kanehsatà:ke culture, language and art

The new website gives visitors a chance to learn more about our people, our land, our culture and our language, while discovering more about our community, our history and what makes Kanehsatà:ke unique. All of the art and pictures featured on the website was purchased from our talented community artists, and a dedicated section allows visitors to get to know them, their art and their inspiration for the project. Accessible in English and in French, the new website also gives the Kanien'kéha language a prominent place throughout the site, thanks to the collaboration of the Language and Culture Center.

Important information when you need it

The new website also brings together emergency resources and important contact information so that community members can find essential information quickly when they need it. From emergency contacts to the entire directory of the MCK administration, critical information is now much easier to find. The website brings together information about MCK departments, programs, services, and current projects, with clearer navigation and contact information to help you find what you are looking for.

Apply for housing and request services online

One of the new features is the ability to access housing information and submit housing applications online. Instead of having to search for the right information or form, community members now have a dedicated place to find housing resources and begin the application process! Members are now also able to access service request forms and other applications online, and send emails or place calls with a single click.

Council, former Chiefs, and governance frameworks

The Governance section features a section about the current Council in place at any time, a list of previous councils and chiefs, and the governance frameworks in place.

Band Council Resolutions

Band Council Resolutions (BCRs) are now easy to find and access, with a dedicated list that provides community members with BCR titles and dates, making it easier to stay informed about decisions made by Council and, if needed, schedule an appointment to view the document you're interested in.

Community events

The new Community Calendar makes it easier to see upcoming MCK meetings, engagements, activities, programs, events and other important dates, and add them to your calendar! The new Community Billboard gives community members and organizations a place to share their events and activities. Whether you are organizing a community gathering, cultural activity, fundraiser, workshop, sporting event or another activity that is open to the community, the billboard will help get the word out.

Discover local businesses

The new Kanehsatà:ke Business Directory provides a place to discover businesses and services in Kanehsatà:ke. Any community member who owns a business, big or small, can request a free listing on the page with their contact information and logo. You can now make your business shine and be visible for potential customers!

COMMUNITY NOTICE

Kanehsatake.ca : A new online hub for our community

Better access to job opportunities

The new Careers section features current employment opportunities with the MCK and other community organizations, providing a central place to see available positions and making it easy to apply straight from the job posting.

Stay informed

The new website is now a central place for MCK news, community notices, announcements, updates and important information from Council and MCK departments. The Communications section features current Community Notices and news, as well as an Engagement section for members who want to get involved in projects and give their input and for those who want to get informed on previous engagement content and outcomes.

A big niawenkó:wa to all of the community members who provided their ideas and feedback for this website : it is entirely based on your needs and priorities. We invite all Kanehsatàkehró:non to take a look, explore the new features and discover everything the new site has to offer.

Explore the new website, it's yours! Visit Kanehsatake.ca
